

Reflection on your hypothesis, outputs, and outcomes

What is your strategy?

What is your splash (outputs, monitored)

What are your near ripples (outcomes, measured)

What are your far ripples (impact)

Framing Question:

What are our intended results?

What were our actual results?

What caused these results?

What should we sustain in future opportunities?

If we could turn the clock back, what would we do differently?

When is our next opportunity to test what we have learned?

When will we do our next BAR?
